### Independent Auditor's Report

To the Board of Directors of Dystrophic Epidermolysis Bullosa Research Association of America, Inc. New York, New York

#### Opinion

We have audited the accompanying financial statements of Dystrophic Epidermolysis Bullosa Research Association of America, Inc. (a nonprofit organization), which comprise the statements of financial position as of December 31, 2022 and 2021, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Dystrophic Epidermolysis Bullosa Research Association of America, Inc. as of December 31, 2022 and 2021, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Dystrophic Epidermolysis Bullosa Research Association of America, Inc. and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Dystrophic Epidermolysis Bullosa Research Association of America, Inc.'s ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Dystrophic Epidermolysis Bullosa Research Association of America, Inc.'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Dystrophic Epidermolysis Bullosa Research Association of America, Inc.'s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

## **Other Matters**

### Change in Accounting Principle

As discussed in Note 2, during the year ended December 31, 2022, Dystrophic Epidermolysis Bullosa Research Association of America, Inc. adopted Accounting Standards Update No. 2016- 02, *Leases (Topic 842)*. Our opinion is not modified with respect to this matter.

## Notes to Financial Statements

### Note 1 - Organization

The Dystrophic Epidermolysis Bullosa Research Association of America, Inc. (D.E.B.R.A.) was incorporated as a nonprofit, publicly supported corporation on January 24, 1979 under the laws of the State of New York. D.E.B.R.A. was formed to promote and support research regarding dystrophic epidermolysis bullosa, and to disseminate information to, and serve as an advocate for, those afflicted with this disease as well as their families, the general public and health professionals.

# Note 2 - Summary of Significant Accounting Policies

### **Basis of Accounting**

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

### **Basis of Presentation**

The financial statements of D.E.B.R.A. comply with the Financial Statements of Not-for-Profit Organizations topic of the FASB Codification. Under this topic, D.E.B.R.A. reports information regarding it financial position and activities according to the following net assets classifications:

**Net assets without donor restrictions** – Net assets that are not subject to donorimposed restrictions and may be expended for any purpose in performing the primary objectives of the organization. These net assets may be used at the discretion of D.E.B.R.A.'S management and Board of Directors.

**Net assets with donor restrictions** – Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of D.E.B.R.A. or by the passage of time. Other donor restrictions are perpetual in nature, where-by the donor has stipulated the funds be maintained in perpetuity.

Donor restricted contributions are reported as increases in net assets with donor restrictions. When a restriction expires, net assets are reclassified from net assets with donor restrictions to net assets without donor restrictions in the statements of activities.

At December 31, 2022, D.E.B.R.A. had \$515,943 of net assets with donor restrictions (\$551,576 at December 31, 2021).

## Note 2 - Summary of Significant Accounting Policies (continued) Revenue and Revenue Recognition

D.E.B.R.A recognizes contributions when cash, securities or other assets; an unconditional promise to give; or a notification of a beneficial interest is received. Conditional promises to give, that is, those with a measurable performance or other barrier and a right of return – are not recognized until the conditions on which they depend are met.

Unconditional contributions are recognized as revenues or gains in the period received and as assets or decreases of liabilities or expenses, depending on the form of the benefit received. Conditional promises to give are recognized when the conditions on which they depend are substantially met. Unconditional promises to give that are expected to be collected within one year are recorded at their net realizable value, while those expected to be collected in future years are recorded at the present value of the expected future receipts.

Contributions received are recorded as net assets without donor restrictions or net assets with donor restrictions. Support that is restricted by the donor is reported as an increase in net assets without donor restriction if the restriction expires in the reporting period in which the support is recognized. All other donor-restricted support is reported as an increase in net assets with donor restrictions. When a restriction (i.e., when a time or purpose restriction is met), net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restrictions.

## Cash and Cash Equivalents

For financial statement purposes, D.E.B.R.A. considers funds in demand deposits, certificates of deposit, money market funds and all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

### Accounts Receivable

Accounts receivable balances include amounts to D.E.B.R.A. from various fund rasing events and contributions from individuals, corporations and foundations. Management has not provided an allowance for doubtful accounts. Management believes all amounts are fully collectible from the funding sources and has not established an allowance for potential losses.

### Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements. They also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

## Note 2 - Summary of Significant Accounting Policies (continued) Equipment

Equipment is recorded at cost when purchased and fair value when donated. Depreciation is computed using the straight-line method over the estimated useful lives of 3-7 years of the respective assets. All expenditures for equipment in excess of \$1,000 and a useful life greater than one year are capitalized.

## **Deferred Revenue**

Deferred revenue consists of income received for specific program purposes which D.E.B.R.A. has received but not expended. Deferred revenue at December 31, 2021 consists of funds received for the fundraising event which occurred in the following year

## Income Taxes

The Dystrophic Epidermolysis Bullosa Research Association of America, Inc. is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. A ruling from the Internal Revenue Service has determined that D.E.B.R.A. will be treated as a publicly supported organization, and not a private foundation. This qualifies D.E.B.R.A. for the 50% charitable contribution deduction for individual donors. Consequently, the accompanying financial statements do not include any provision for income taxes.

D.E.B.R.A. recognizes the effect of tax positions only when they are more than likely than not of being sustained. Management has determined that D.E.B.R.A. had no uncertain tax positions that qualify for either recognition or disclosure in the financial statements. In the normal course of business, D.E.B.R.A.'s tax filings are subject to examination by federal and state authorities. The tax returns for the years ended December 31, 2019 and forward are subject to examination by taxing authorities.

## **Functional Expenses**

D.E.B.R.A. allocates expenses on a functional basis among programs and support services. Expenses that can be specifically identified are charged directly to the related program or support service. Other expenses that are common to several functions are allocated based on estimates made by management.

## **Compensated Absences**

D.E.B.R.A.'s accounting for compensated absences conforms to generally accepted accounting principles and recognizes vacation pay when earned. Accrued vacation was \$-0- at December 31, 2022 and 2021.

## Note 2 - Summary of Significant Accounting Policies (continued)

### Investments

Investments in equity securities with readily determinable fair market values and all investments in debt instruments are reported at fair value in the statement of financial position. Realized gains or losses and unrealized appreciation or depreciation are reflected in the accompanying statement of activities. If received as a donation, the investment is stated at fair value at the date of donation.

Investments in non-publicly traded equity securities are valued based on initial purchase price, recent venture financings, the existence of any contractual or legal restrictions, financial information for public comparable companies, information obtained from the company, the financial condition and operating results of the company or other factors and are categorized as Level 3 securities. Due to the inherent uncertainty of valuing such investments, the values which will be ultimately realized through future transactions may differ significantly from the carrying value of such investments.

### **Inventory – Medical Supplies**

D.E.B.R.A. receives various medical supplies (bandages, creams, ointments) from families affected with E.B. and various medical companies. The medical supplies represent items received by these families that are either no longer needed or incompatible with treating E.B. for the child. D.E.B.R.A. values the donated supplies based on published prices of major medical suppliers.

## **Reclassifications and Restatement**

Certain accounts in the prior-year financial statements have been reclassified for comparative purposes to conform with the presentation in the current-year financial statements. Prior years investments have been restated to reflect that there are no readily observable inputs available to value the investment in a privately held biotechnology company. The effect was to decrease 2021 beginning net assets by \$250,000.

## **Concentration of Credit Risk**

Cash and cash equivalents - D.E.B.R.A. places its cash deposits with high credit-quality financial institutions. Such deposits may exceed federal depository insurance limits at times during the year. However, management believes that these deposits are not subject to significant credit risk. The money market funds held in brokerage accounts is not protected by federal depository insurance.

Investments – D.E.B.R.A.'s investments are comprised of various common and preferred stocks. The value of these investments is subject to fluctuations due to general market conditions and interest rates.

### Note 2 - Summary of Significant Accounting Policies (continued)

**New Accounting Standard** - In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*, which supersedes existing guidance for accounting for leases. The most significant change in the new leasing guidance is the requirement to recognize right-to-use (ROU) assets and lease liabilities for operating leases on the statement of financial position.

The Organization elected to adopt these ASUs effective January 1, 2022. The most significant impact was the recognition of an ROU asset of \$89,521 and a lease liability of \$89,521 for it operating lease for office space. See Note 10 for a discussion of the lease activity under the new standard.

### Subsequent Events

Management has evaluated events and transactions subsequent to December 31, 2022, through May 10, 2023, the date the financial statements were available to be issued. There were no subsequent events that require disclosure.

## Note 3 - Equipment, Net

Equipment, net is summarized as follows at December 31:

	2022		2021
Equipment	\$ 44,082		\$ 44,082
Less accumulated			
depreciation	 (43,851)		 (41,033)
Equipment, net	\$ 231	-	\$ 3,049

### Note 4 - Inventory

The value of donated medical supplies is based on published prices of major medical suppliers. Inventory consists of bandages, creams, ointments and dressings. The value of the donated medical supplies inventory at December 31, 2022 and 2021 was \$436,426 and \$505,536 respectively.

## Note 5 - Donated Services, Materials, Facilities

D.E.B.R.A. receives donated services from a variety of unpaid volunteers. No amounts have been recognized in the accompanying statement of activities because the criteria for recognition of such volunteer effort under ASC 958 have not been satisfied. The contributions of services are recognized if the services received (a) create or enhance nonfinancial assets or (b) require specialized skills that are provided by individuals possessing those skills and would typically need to be purchased if not provided by donation. The value of donated legal services and medical supplies and other professional services was \$1,111,130 for the year ended December 31, 2022 and \$984,716 for the year ended 2021. The medical supplies were distributed directly to the families of children afflicted with the disease.

#### Note 6 - Net Assets with donor restrictions

D.E.B.R.A. has received funds from E.B. support groups, corporations, and individuals who have designated their funds to a specific program or purpose. These funds are to be used for the education and outreach programs of local support groups, Family Crisis Fund, Wound Care, Nurse Assistance, New Family Advocate Program, Research, and the dissemination of information concerning the disease E.B. Net assets with donor restrictions were as follows at December 31:

	2022	2021
Programs and E.B. Support		
Groups	\$ 515,943	\$ 551,576

#### Note 7 - Fair Value Measurements

The Financial Accounting Standards Board ("FASB") Topic 820, under the FASB Accounting Standards Codification ("ASC") defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. This standard provides a consistent definition of fair value, which focuses on an exit price between market participants in an orderly transaction. The standard also prioritizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that observable inputs be used when available.

Observable inputs are inputs that market participants would use in pricing the respective asset or liability based on market data obtained from independent sources. Unobservable inputs reflect assumptions that market participants would use in pricing the asset or liability based on the best information available in the circumstances. The hierarchy is categorized into three levels based on the transparency of inputs as follows:

- Level 1 Quoted prices are available in active markets for identical assets or liabilities as of the report date. A quoted price for an identical asset or liability in an active market provides the most reliable fair value measurement because it is directly observable to the market.
- Level 2 Pricing inputs are other than quoted prices in active markets, which are either directly or indirectly observable as of the report date. The nature of these securities includes investments for which quoted prices are available but traded less frequently and investments that are fair valued using other securities, the parameters of which can be directly observed. Also included in Level 2 are investments measured using a net asset value ("NAV") per share, or its equivalent, that may be redeemed at NAV at the date of the statement of financial position or in the near term, which D.E.B.R.A. has determined to be within 90 days.

## Notes to Financial Statements

### Note 7 - Fair Value of Financial Measurements (continued)

Level 3 - Investments that have little to no pricing observability as of the report date. These investments are measured using management's best estimate of fair value, where the inputs into the determination of fair value are not observable and require significant management judgment or estimation.

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, volatility statistics, specific and broad credit data, liquidity statistics, and other factors. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes "observable" requires significant judgment by D.E.B.R.A. D.E.B.R.A. considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The categorization of a financial instrument within the hierarchy is based upon the pricing transparency of the instrument and does not necessarily correspond to D.E.B.R.A.s' perceived risk of that instrument.

D.E.B.R.A.s' policy is to recognize transfers in and transfers out of levels at the end of the reporting period.

The following is a description of the valuation methodologies used for assets measured at fair value:

**Exchange Traded Funds, Common Stocks and Mutual Funds** – These items are valued at the closing price reported in the active market in which the individual securities are traded.

There have been no changes in the methodologies used at December 31, 2022 and 2021.

### Note 7 - Fair Value of Financial Measurements (continued)

Assets Measured at Fair-Value on a Recurring Basis – The following is a summary of the source of fair-value measurements for assets that are measured at fair-value on a recurring basis as of December 31:

	2022	2021
	Level 1	Level 1
Common stocks	\$ 192,496	\$ 303,466
Mutual funds	529,431	529,583
	\$ 721,927	\$ 833,049

### Note 8 - Liquidity and Availability of Financial Assets

The following represents D.E.B.R.A.'s financial assets at December 31,:

D.E.B.R.A.'s goal is generally to maintain financial assets by receiving support from various sources including individual, corporate, foundation and Board contributions, as well as income from investment sources.

	2022	2021
Financial Assets at year end:		
Cash and cash equivalents	\$ 366,608	\$ 451,231
Investments	721,927	736,140
Accounts receivable	468,497	262,765
Total Financial assets	1,557,032	1,450,136
Less amounts not available to be within one year		
Net assets with donor restrictions	515,943	551,576
Financial assets available to meet general		
expenditures over the next twelve months	\$ 1,041,089	\$ 898,560

## Note 9 - Lease Activity

D.E.B.R.A. has an operating lease for office space in New York City, New York. The lease began on May 15, 2022 and has a remaining lease term of 1 year. D.E.B.R.A. elected to use the risk-free interest rate of 3.53%, which was in place at January 1, 2022.

The maturity of the lease liability is \$89,521 at December 31, 2023
